

# A definitive guide for highly successful and low risk PGD

## Pre-implantation Genetic Diagnosis: the who, the what, the why and the how

3 – 4 November 2017

Guy's Hospital, London, UK

Hear from a centre with 20+ years experience in Preimplantation Genetic Diagnosis (PGD), which is one of the most successful in Europe with **more than 800 babies born free from genetic diseases** following PGD.

Includes talks from Clinical Genetics, Reproductive Medicine, Embryology and Genetics Laboratories to share our multidisciplinary experience, followed by interactive workshops on complex issues.

**Early bird savings apply when you book before 30 June 2017.**
